

#together

Are you concerned about the cost-of-living crisis?

Do you think lockdowns and restrictions harmed society,
children's education and businesses?

Do you want to be able to talk about these issues, the impact
and how we can make a difference without fear of being
censored?

We'd love you to subscribe at
<https://togetherdeclaration.org/>

We know people have questions and would like to meet
others to talk. There are local meetings taking place to share
information, raise awareness and enable people to take
action. If you would like to join and want more information,
please email - office@togetherdeclaration.org

We are always Better Together
